

RIVARA

Utilizing the latest nano-glaze technology, crystallized particles form a fine three-dimensional surface texture that gives the tile a soft, sand-like feel. When wet, the surface creates a suction effect, increasing friction between the feet and the tile, achieving an anti-slip effect. This significantly reduces the risk of falls and marks a major breakthrough in tile technology.

Nano Anti-Slip
SAFE

Rivara

60x60 cm / 23.6x23.6"

R11 **P5** Nano Grip
